JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

## CUBA.

*Report from Cienfuegos—Inspection and fumigation of vessel—Leprosy—Yellow fever—Local branch of the national board of health closed—Summary of transactions month of October, 1907.*

Acting Assistant Surgeon Marsillan reports, November 4:

Week ended November 2. Only 1 ship cleared from this port for the United States was inspected and fumigated—the Norwegian steamship *Trafalgar*, from Guantanamo, Cuba, bound to Mobile, Ala. One supplemental bill of health was granted to her. Crew inspected, 25. She had not landed nor taken on here anyone. No passengers this week, and no immune certificate was issued.

If it were not for the presence of 1 case of yellow fever, the sanitary condition of this city could be classified as fair instead of infected. Quarantinable diseases present in the city, yellow fever and leprosy.

Statistics of yellow fever: Total number of cases to date, 70; recoveries, 50; deaths, 19; under treatment, 1.

The branch in this city of the national board of health has been closed since October 31. One hundred men will remain in this city, divided into brigades of 10 men each, to continue sanitary works and fumigation of houses in case of necessity, under the direction of the local board of health.

*Transactions for the month of October, 1907.*

Vessels inspected.....	6
Vessels inspected and fumigated.....	11
Bills of health issued.....	17
Members of crews inspected.....	506
Members of crews inspected landed here.....	4
